Body Material:

Cellulose acetate

Filtering Surface Area:

1.7 square meters

Sterility:

Sterile

Disposition After Initial Use:

Disposable

Capacity Accommodated:

110.0 milliliters

Dialyzer Element Form:

Hollow fiber

Membrane Thickness In Microns:

15.0

Special Features:

24 each per case

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T117-e
