**Overall Length:**

30.000 inches

**Design Designation:**

Esophgeal

**Disposition After Initial Use:**

Disposable

**Material And Location:**

Metal and plastic

**Features Provided:**

Sterile

**Product Name:**

Probe temperature monitoring esophageal 9fr 30"lg metal/plas100s

**Special Features:**

Monitors temperatures of patients during general anesthesia; size 9 fr for atraumatic insertion reinforced longer lead wire version is avail for critical care use

**Flexibility:**

Rigid

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fig:**

T133-g
