Overall Length:

30.000 inches

Design Designation:

Esophgeal

Disposition After Initial Use:

Disposable

Material And Location:

Metal and plastic

Features Provided:

Sterile

Product Name:

Probe temperature monitoring esophageal 9fr 30"lg metal/plas100s

Special Features:

Monitors temperatures of patients during general anesthesia; size 9 fr for atraumatic insertion reinforced longer lead wire version is avail for critical care use

Flexibility:

Rigid

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-g
