Attachment Method:

With clip for cuff

Design Designation:

Hand

Carrying Case Material:

Plastic

Securing Method To Person:

Wraparound sleeve

Manometer Type:

Aneroid

Scale Maximum Calibration:

260.0 millimeters

Special Features:

Standard; portable; for use in examining diagnosis; to obtain accurate arterial blood pressure on obese patients

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T265-f
