Design Designation:

Orthopedic

Material And Location:

Steel, corrosion resisting

Overall Diameter:

3.0 millimeters

Shanklength:

11.000 inches

Special Features:

Facilitate the drilling of k-wire tunnels for easy passing of sutured grafts; used to repair torn and/damaged acl

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-e
