Current Type:

Ac

Accessory Components And Quantity:

Bspare inlet valve, 1 ea; spare outlet valve, 1 ea; spare gasket, 2 ea; operation and maintenance manual, 2 ea; 3.785 liter (1 gal.) bottle graduated in cubic centimeters; 6 ft. Long tubing, 2 ea.

Installation Design:

Mobile

Controlled Suction Source:

Included

Thermotic Type Feature:

Included

Product Name:

Suction apparatus surg 125/230v 50/60hz prtble with vacuum valve

Exterior Container Weight:

30.00 pounds

Voltage In Volts:

120.0 or 230.0

Exterior Container Cubic Measure:

8.60 cubic feet

Exterior Container Quantity:

1

Special Features:

Solid state vacuum control system adjusted by a vacuum control switch to settings of 90 and 120 mm hg. Automatic overflow switch. 4 ball-bearing caster wheels, 2 of which are locking, for ease of mobility. Suitable for gastrointestinal decompression or suprapubic drainage.

Frequency In Hertz:

50.0 or 60.0

Unit Of Issue Cube:

4.41 cubic feet

Unit Of Issue Weight:

20.00 pounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T107-c
