Surgical Suction Apparatus - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6515-01-358-9480

Current Type:
Ac
Accessory Components And Quantity:
Bspare inlet valve, 1ea; spare outlet valve, 1 ea; spare gasket, 2 ea; operation and maintenance manual, 2 ea; 3.785 liter (1 gal.) bottle
graduated in cubic centimeters; 6 ft. Long tubing, 2 ea.
Installation Design:
Mobile
Controlled Suction Source:
Included
Thermotic Type Feature:
Included
Product Name:
Suction apparatus surg 125/230v 50/60hz prtble with vacuum valve
Exterior Container Weight:
30.00 pounds
Voltage In Volts:
120.0 or 230.0
Exterior Container Cubic Measure:
8.60 cubic feet
Exterior Container Quantity:
1
Special Features:
Solid state vacuum control system adjusted by a vacuum control switch to settings of 90 and 120 mm hg. Automatic overflow switch. 4
ball-bearing caster wheels, 2 of which are locking, for ease of mobility. Suitable for gastrointestinal decompression or suprapubic drainage.
Frequency In Hertz:
50.0 or 60.0
Unit Of Issue Cube:
4.41 cubic feet
Unit Of Issue Weight:
20.00 pounds
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
No
Fiig:
T107-c
