**Current Type:**

Ac

**Accessory Components And Quantity:**

Bspare inlet valve, 1ea; spare outlet valve, 1 ea; spare gasket, 2 ea; operation and maintenance manual, 2 ea; 3.785 liter (1 gal.) bottle graduated in cubic centimeters; 6 ft. Long tubing, 2 ea.

**Installation Design:**

Mobile

**Controlled Suction Source:**

Included

**Thermotic Type Feature:**

Included

**Product Name:**

Suction apparatus surg 125/230v 50/60hz prtble with vacuum valve

**Exterior Container Weight:**

30.00 pounds

**Voltage In Volts:**

120.0 or 230.0

**Exterior Container Cubic Measure:**

8.60 cubic feet

**Exterior Container Quantity:**

1

**Special Features:**

Solid state vacuum control system adjusted by a vacuum control switch to settings of 90 and 120 mm hg. Automatic overflow switch. 4 ball-bearing caster wheels, 2 of which are locking, for ease of mobility. Suitable for gastrointestinal decompression or suprapubic drainage.

**Frequency In Hertz:**

50.0 or 60.0

**Unit Of Issue Cube:**

4.41 cubic feet

**Unit Of Issue Weight:**

20.00 pounds

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T107-c
