Unit Package Quantity:

10

Design Designation:

Intubation and nasal and oral

Shaft Eye Quantity:

1

Inflation Device:

Pilot balloon and self-sealing valve

Tip Type:

Beveled

Core Fabrication Method:

Not woven

Diameter:

8.0 millimeters

Material And Location:

Plastic, polyvinyl chloride

Features Provided:

Clear

Special Features:

Designed to reduce trauma to the airway during surgical procedures

Style Designator:

Tracheal w/ cuff

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
