Minor Width:

12.0 millimeters

Thickness:

3.0 millimeters

Length:

141.0 millimeters

Design Designation:

Fracture

Material And Location:

Steel, corrosion resisting

Hole Quantity:

9

Special Features:

Accepts size 4.5 mm cortex screws; 15.0 mm distance between holes; designed to provide rigid fixation along the fracture line of the pelvis

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-h
