Overall Length:

8.000 inches

Overall Width:

6.000 inches

Overall Thickness:

0.040 inches

Material And Location:

Silicone

Features Provided:

Flexible

Product Name:

Sheeting implant&fabrication 8x6x0.04"silicone flex nonreinforce

Special Features:

4non-reinforced; translucent; autoclavable; for use in surgical procedures to repair blowfractures of the orbit of the eye, and laboratory uses such as gaskets and stoppers, for microbiological closures, and septa in glass liquids chromatographs

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-c
