Overall Length:

19.000 inches

Design Designation:

Esopghageal

Disposition After Initial Use:

Disposable

Material And Location:

Plastic, polyvinyl chloride

Product Name:

Probe temperature monitoring esophageal 19"lg 18fr plas disp 20s

Special Features:

18 fr; w/thermistor (400 series) sensors; for use in accurate measurement of body temperature in addition to transmission of heart and lung sounds

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-g
