Body Material:

Plastic

Filtering Surface Area:

1.8 square meters

Sterility:

Sterile

Disposition After Initial Use:

Disposable

Capacity Accommodated:

120.0 milliliters

Dialyzer Element Form:

Hollow fiber

Special Features:

High bio-efficiency; polysulfone membrane; 8.1 ultrafiltration rate; 10 per package

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T117-e
