Core Fabrication Method:

Not woven

Material And Location:

Plastic, polytetrafluoroethylene, ams 3655

Features Provided:

Sterile

Product Name:

Vascular ptfe graft, 8 mm x 80 cm, stretch

Special Features:

Arterial and venous; prosthesis; standard stretch graft; straight, 8 mm by 80 cm; designed for replacement of traumatized or diseased arteries and veins

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
