Unit Package Quantity:

12

Design Designation:

Foley

Balloon Capacity:

5.0 cubic centimeters

Proximal End Funnel Quantity:

2

Tip Type:

Round

Core Fabrication Method:

Not woven

Diameter:

18.000 french

Material And Location:

Rubber, latex catheter and silicone outer layer

Features Provided:

Sterile and disposable

Special Features:

18 fr.; 5cc silicone elastomer coated; nonribbed balloon; 2-way

Style Designator:

Modified retention

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
