Tip Type:

Open end

Core Fabrication Method:

Not woven

Diameter:

7.000 french

Material And Location:

Plastic, polyurethane

Features Provided:

Clamp flow control device and disposable and flexible and sterile and x-ray opacity

Criticality Code Justification:

Feat

Product Name:

Catheter urethral b5a metal curved 7fr open end tip 22cm lg flex

Special Features:

Double pig tail stent w/attached suture; open tip; 22 cm lg

Style Designator:

Metal, curved

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
