Unit Package Quantity:

4

Design Designation:

Left endobronchial tube

Balloon Capacity:

12.0 cubic centimeters

Tip Type:

Angular

Patient Size Designation:

Adult

Diameter:

41.000 french

Material And Location:

Plastic, polyvinyl chloride tube

Tubelength:

17.250 inches

Features Provided:

Sterile and disposable

Product Name:

Tube endobronchial left 41fr diameter plastic polyvinyl chl 12cc

Special Features:

Consists of double lumen tube; double swivel connector; y-type connector; 3 suction catheter, 12 fr. Size; 1 tube kit per box; 4 kits per case

Style Designator:

Tracheal w/ cuff

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
