Inside Diameter:

1.5 millimeters

Overall Length:

2.0 millimeters

Unit Package Quantity:

5

Design Designation:

Paparella

Core Fabrication Method:

Not woven

Material And Location:

Silicone rubber

Special Features:

Flange 4.45mm i.D.; used for ventilation and inner ear drainage; type 2

Style Designator:

Tympanotomy

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
