Component And Quantity:

Microporous polypropylene membrane; stainless steel heat exchanger; acrylic case; polyurethane and silicone potting compounds

Special Features:

Belows design; sterile; non-pyrogenic; disposable; single use only; priming volume 320 ml; heat exchange performance factor, 0.58; fiber surface area, 1.82 m²; recommended flow range, 1-7 l/min; oxygen transfer, volume %, 5.7 ml/min: 341: carbon dioxide transfer, volumes %: 7.3 ml/min: 442

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T107-a
