Needle Gage Number:

23

Tip Type:

Straight

Material And Location:

Steel, corrosion resisting

Eye Quantity:

1

Features Provided:

Sterile and disposable

Distal End Shape:

Blunt

Product Name:

Cannula cystotome 23ga ndl blunt distal end str tip crs ster 10s

Special Features:

Formed reverse cutting; used for capsulotomies nucleus dislocating; cystitomes bent to conform to the convexity of the lens

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-c
