Unit Package Quantity:

10

Design Designation:

Oral and rae

Shaft Eye Quantity:

2

Tip Type:

Beveled

Core Fabrication Method:

Not woven

Diameter:

6.0 millimeters

Material And Location:

Plastic, thermoplastic

Tubelength:

17.5 centimeters

Product Name:

Tube tracheal e11 w/o cuff 6mm diameter beveled tip 17.5cm lg plas10s

Special Features:

Designed for use when airway management/surgical access needs are in conflict

Style Designator:

Tracheal w/0 cuff

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
