Universal Medical Device Nomenclature System Code:

18471

Product Name:

Anesthesia nerve stimulator

Special Features:

Blockade monitor; portable; miniaturized; battery powered; 1 x 1/2 x ne 9-volt alkaline battery; two operation modes; tetanus, 50-pulse/sec; twitch, 1 or 2 pulses/sec; for replacement battery, order 6135-00-044-1822; for electrodes, order 6135-01-140-5353; for use by anesthesia personnel; for use in monitoring effects of skeletal muscle relaxation of patients during neuromuscular block anesthesia

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-f
