Thread Length:

5.0 millimeters

Material And Location:

Titanium

Outside Thread Diameter:

1.8 millimeters

Product Name:

Screw bone titanium locking 1.8mm dia 4mm lg comp of spine implant

Special Features:

Locking screw; titanium; has hollow ends for insertion of smaller screw which expands; component of cervical spine locking plate implants

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-m
