Component And Quantity:

Pressure transducer 1; iv set 1; flush device 1; three-way stopcock cap 1; non-vented cap 1; 5 cc blood reservoir 1; reservoir mounting plate 1; sampling site 1; 10.000 in.Pressure tubing 1; 6.000 in.Pressure tubing 1; 48.000 in.Pressure tubing 1; shut-off valve 1

Features Provided:

Disposable

Product Name:

Monitoring set vascular pressure vamp venous arterial blood 10s

Special Features:

Vamp venous arterial blood management protection system with mount reservoir

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T107-a
