Current Type:

Ac

Accessory Components And Quantity:

Spare inlet valve, 1 ea; spare outlet valve, 1 ea; spare casket, 2 ea; operation and maintenance manual, 2 ea; 6 foot long tubing, 2 ea; 3.785 liter bottle graduated in cubic centimeters, 1 ea.

Installation Design:

Mobile

Controlled Suction Source:

Included

Thermotic Type Feature:

Included

Product Name:

Suction apparatus surgical mobile 120/230v 50/60hz 16x14x34in

Voltage In Volts:

120.0 or 230.0

Special Features:

Solid state vacuum control system adjusted by a vacuum control switch to settings of 90 and 120 mm hg. Automatic overflow switch. 4 ball bearing casters, two of which are locking, for ease of mobility. Suitable for gastrointestinal decompression or suprapubic drainage.

Frequency In Hertz:

50.0 or 60.0

Supplementary Features:

16.0 in. Wide by 14.0 in. Deep by 34.0 in. High.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T107-c
