Diameter:

35.000 millimeters

Catheter Length:

65.000 centimeters

Material And Location:

Plastic fitting err-100 err-100

Special Features:

Used contralateral catheterization of contralateral high iliac occlusion, catheter feature a radiopaque marker at distal tip for accurate positioning and enhanced visualization

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
