**Diameter:**

35.000 millimeters

**Catheter Length:**

65.000 centimeters

**Material And Location:**

Plastic fitting err-100 err-100

**Special Features:**

Used contralateral catheterization of contralateral high iliac occlusion, catheter feature a radiopaque marker at distal tip for accurate positioning and enhanced visualization

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

A22100
