Thread Length:

5.0 millimeters

Length:

175.0 millimeters

Material And Location:

Titanium

Product Name:

Screw bone 5mm thread length 175mm lgself-drilling large bone

Special Features:

Self-drilling; schanz style; external fixation orthopedic screw; used for stabilization and fixation of large bone fractures; designed to be compatible w/all external fixation device systems

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-m
