Overall Length:

150.0 centimeters

Overall Width:

15.0 meters

Specific Use:

Securing specimens and tissue

Material And Location:

Platinum ribbon loop

Design Form:

Ring and rod

Size:

18

Special Features:

Cproximal o/d 0.039 in; distal o/d 0.036 in; cath i/d 0.042 in; used through 6f guiding catheter; tracker-18 unibody micro catheter and seeker guidewire; enables access to distal tortuous vasculature

Precious Material And Location:

Loop surfaces platinum

Precious Material:

Platinum

Shape:

Loop

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-d
