Unit Package Quantity:

200

Design Designation:

Intravenous

Core Fabrication Method:

Woven

Diameter:

16.000 gage

Material And Location:

Plastic, polytetrafluoroethylene catheter and steel, corrosion resisting needle

Product Name:

Catheter and needle unit iv 16ga diameter 1.75 l yellow sterile disp safe type 200s

Special Features:

Color coded yellow; with needle guard safety

Style Designator:

Intravenous catheter and needle unit

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
