Inside Diameter:

2.890 millimeters

Outside Diameter:

3.830 millimeters

Unit Package Quantity:

5

Lumen Passage Quantity:

2

Diameter:

11.500 french

Material And Location:

Plastic, polyurethane

Features Provided:

Disposable and flexible and sterile

Special Features:

Mahurkar dual lumen catheter; 16 cm implantable length; curved extensions; fully rotatable suture wing; double packaged; for acute hemodialysis and apheresis.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
