Inside Diameter:

2.500 millimeters

Outside Diameter:

3.300 millimeters

Unit Package Quantity:

5

Lumen Passage Quantity:

2

Diameter:

10.000 french

Material And Location:

Plastic, polyurethane

Features Provided:

Disposable and flexible and sterile

Special Features:

Mahurkar dual lumen catheter; 15 cm implantable length; straight extensions; fully rotatable suture wing; double packaged; for acute hemodialysis and apheresis.

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
