Overall Length:

1.500 inches

Unit Package Quantity:

10

Design Designation:

Anesthesia, retrobulbar

Material And Location:

Steel, corrosion resisting and plastic hub

Needle Cannula Gage Designation And Location:

23 gage cannula

Features Provided:

Sterile and disposable

Product Name:

Needle eye anesthesia retrobulbar aktinson 23ga ster disp 10s

Special Features:

Aktinson design; use for admimisteing anesthesia prior to ocular surgery

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A21800
