Current Type:

Ac/dc

Product Name:

Monitor patient vital signs 110/220v 50/60hz ac/dc

Voltage In Volts:

110.0 and 220.0 and 12.0

Special Features:

C/o: 90309 pc scout tranportable/bedside monitor; 3 trace el display; dual channel internal recorder; 90351-1d expansion housing for the 90309 scout to provide spo2 and adult/neonatal nibp; 90470-07-21 multi-lead adult/neonatal ecg module with esis; two invasive blood pressures; two temperatures; multiview ii arrhythmia review/edit and st segment analysis; 012-0291-01 pcms accessory kit; adult and neonatal nibp hose; one box of neonatal tru-cuff disposable nibp cuffs; one box of adult tru-cuff disposable nibp cuffs (please specify size); one battery p/n 146-0018-00; one ac converter (must specify 110 volt p/n 650-0379-00 or 220 volt p/n 650-0391-00).

Frequency In Hertz:

50.0 and 60.0

Supplementary Features:

Note to requisitioner: the p/n 999-nsn2-00 was assigned by spacelabs to represent a configured system requested by the military services. The component listing for the system can be found in "features".

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-f
