Product Name:

Pump iv infusion volumetric two channel dose rate calculator

Special Features:

Volumetric; two channel; dose rate calculator, full and partial occlusion detection, secondary infusions, free-flow protection, air-in-line, battery depleted, channel malfunction, computer link failure, hold time exceeded, instrument malfunction, key stuck, latch open, occlusion downstream, occlusion upstream, set out, and set up time exceeded alarms; 0.1-999.9 ml/hr primary rate, 0.1-270.0 ml/hr secondary rate, 0.1-9999.9 ml primary volume, 0.1-999.9 ml secondary volume, and 0.1-20.0 ml/hr kvo rate ranges

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-f
