Product Name:

Pump iv infusion volumetric pump/controller 2 channel

Special Features:

Pvolumetric infusion pump/controller, two channel, on-line titration, tapered infusion, free-flow protection, data port, secondary infusion, 0.1-999 ml/hr pum (and 0.1-500 ml/hr controller) rate, 0.1-9999 ml vtbi, and 1 ml/hr(or set rate if <1 ml/hr) kvo rate ranges, and check ecd, check 1v set, door open, air-in-line, occluded, occluded-patient side, occluded-fluid side, partial occlusion-fluid side, flo-stop open/close door, battery discharged, and malfunction alarms

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-f
