Overall Height:

11.000 inches

Overall Width:

13.000 inches

Current Type:

Ac

Product Name:

Ventilator volume ptbl 13x11 in 14.5in deep 200w0.97power factor

Special Features:

14.5 inches deep; 200 watts; 0.97 power factor; battery voltage 48 vdc supply (4 x 12 vdc batteries); has sigh capability, control mode, assist control, simv, and cpap; includes internal peep valve, internal oxygen accumulator, and patient circuit kit; patented turbine technology provides excellent gas delivery without the need for a gas source; can monitor up to 8 parameters (vte, ve, f, pip, map, i: e, peep, and cst); has multivoltage capability; compact; durable; lightweight; provides uninterrupted mechanical ventilation; designed to stay with patient through the continuum of care

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

T133-f
