**Current Type:**

Ac

**Accessory Components And Quantity:**

Atomizers 2; blower powder 1; syringe 1; nebulizer 1; cotton jars 2; bottles solution amber 6; bottles solution cleaner 6; otoscope handle and coiled cord with a giagnostic head, operating head and fiberoptic

**Major Component And Quantity:**

Cabinet unit 1; compressor module self-contained 1; includes two compressors; filter 1; trap bottle 1; gauge 1; footswitch 1; panel air and electrical 1

**Product Name:**

Operating apparatus ear nose throat 110v 50/60hz ac single phase

**Voltage In Volts:**

110.0

**Phase:**

Single

**Special Features:**

Cabinet unit mounted on casters; with isolation transformer for varying voltages; 220 volts capability

**Frequency In Hertz:**

50.0 or 60.0

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T107-f
