Inside Diameter:

6.0 millimeters

Design Designation:

Arterial and venous prosthesis

Tip Type:

Round

Product Name:

Tube vascular graft 6mm x 30cm ringed section length

Special Features:

Gore-tex design; fep (fluorinated ethylene propylene), ringed, thin wall vascular grafts; 6 mm internal dia; 30 cm ringed section length; 80 cm standard length; for use as vascular prostheses f/replacement or bypass of diseased vessels in patients suffering occlusive or aneurysmal diseases, in trauma patients requiring vascular replacement, for dialysis access, or for other vascular procedures

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
