Inside Diameter:

8.0 millimeters

Design Designation:

Arterial and venous prosthesis

Tip Type:

Round

Material And Location:

Plastic, fluorinated ethylene

Product Name:

Tube vascular graft gore-tex design 8mm x 30cm ringed section.

Special Features:

Gore-tex design; fep (fluorinated ethylene propylene), ringed, thin walled vascular graft; 8 mm internal dia; 30 cm ringed section length; 80 cm standard length; used as a vascular prostheses f/replacement or bypass of diseased vessels in patients suffering occlusive or aneurysmal diseases, in trauma patients requiring vascular replacement, for dialysis access, or for other vascular procedures

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
