Angiography Catheter - Page 1 of 1

View Online at https://aerobasegroup.com/nsn/6515-01-465-2946

Tip Type:

Tapered

Connector Type:

Luer lock hub

**Core Fabrication Method:** 

Not woven

Diameter:

2.360 millimeters

**Catheter Length:** 

100.000 centimeters

Material And Location:

Plastic, polyethylene tube

Features Provided:

Disposable and sterile

### **Special Features:**

Wfrench size 7.1; pliable; medium friction coeff; contains bismuth salts for radiopacity; for selective/superselective angiograms in vena cava and aorta; peel open pkg; lumen 1.57 mm; red color; wire guide diameter 0.038 in; 6 sideports

## Style Designator:

Angioplasty

Shelf Life:

N/a

### Unit Of Measure:

---

## Demilitarization:

No

Fiig:

A22100
