Tip Type:

Tapered

Connector Type:

Luer lock hub

Core Fabrication Method:

Not woven

Diameter:

2.160 millimeters

Catheter Length:

80.000 centimeters

Material And Location:

Plastic, polyethylene tube

Features Provided:

Disposable and sterile

Special Features:

Wfrench size 6.5; pliable; medium friction coeff; contains bismuth salts for radiopacity; for selective/superselective angiograms in vena cava and aorta; peel open pkg; lumen 1.47 mm; red color; wire guide diameter 0.038 in; 6 sideports

Style Designator:

Angioplasty

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A22100
