Width:

5.000 inches

Diameter:

6.000 inches

Length:

6.500 inches

Material And Location:

Plastic, polyethylene foam back

Special Features:

Stat-padz radiolucent multi-function electrodes; closed cell polyethylene foam backing material; polymer hydrogel conductive gel; silver/silver chloride conductive element; preattached lead with keyed zoll connector; for hands-free defibrillation, noninvasive pacing, cardioversion and ecg monitoring

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-c
