Overall Length:
90.000 millimeters
End Application:
Component of anterior cervical plating system which is a complete unicortical/bicortical system, p/n 46-4110, cn 99-0597, nsn 01-470-4192;
this system freatures color coded screws and tools
Product Name:
Plate bone anterior 90 millimeters Ig steel corrsion resisting
Special Features:
Pre-lordosed to match the natural contour of the anterior cervical spine minimizing the need to bend the plates; cam-loc mechanism allows
screws to be placed at various anbles then locked, eliminating the need for additional components; cleated undersurface prevents slippage
during implant positioning
Material:
Stainless steel
Shelf Life:
N/a
Unit Of Measure:
Demilitarization:
