Product Name:

Monitoring kit blood pressure

Special Features:

Includes: "t" adapter; tubing for connection to any monitor; verifies all oscillometric adult or neonatal non-invasive bp monitors; provides dynamic bp simulations; static calibration; automated leak testing; high and low pressure release verification; simulates motion artifacts including smooth and gravel road

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fiig:

A23800
