End Application:

For detection of respiratory disease; expanded bronchoscopic treatment capabilities

Product Name:

Bronchoscope fiber tube o/a lg 840.0 mm distal end 5.8 mm dia

Special Features:

Tube o/a lg: 840.0 mm; olympus; lamp not included; improved suction and biopsy valves are standard accessories; wider 120 degrees field of view; smaller diameter and greater tip bending range for easier operation; 180 degrees up and 130 degrees down bending capabilities; offers electrical insulation for operator safety; distal end outer diameter 5.8 mm; working channel 2.2 mm; increased bal efficiency and enhanced cleanability

Supplementary Features:

Distal end od 5.8 mm; extra brightness with electrosurgical capability, with smooth ergonomic design control section

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No
