

View Online at <https://aerobasegroup.com/nsn/6515-01-481-4486>

**Portability:**

Portable

**Special Features:**

Interchangeable graphics; waveform display of pressure, flow, and volume with freeze and cursor functions; monitoring screen displaying vital ventilation information; pediatric; trending of all parameters for up to 24 hrs; total flow synchrony; pressure support availability for all breath types; volume delivery from 10-1200ml; pressure control ventilation; volume assured pressure support; variable rise time; monitors: airway pressure, i: e ratio, inspiratory time, minute volume, mean airway pressure, peak inspiratory pressure, positive end expiratory pressure, and tidal volume; alarms: blender input gas, high breath rate, high pressure, high/prolonged pressure, high tidal volume, low inlet gas pressure, low minute volume, low peep/cpap pressure, low peak pressure and pressure support/vaps time limit

**Shelf Life:**

N/a

**Unit Of Measure:**

--

**Demilitarization:**

No

**Fiig:**

T133-f
