Design Designation:

Intravenous

Lumen Passage Quantity:

2

Tip Type:

Double luer lock hub

Catheter Length:

25.0 millimeters

Material And Location:

Silicone catheter

Features Provided:

Sterile and clamp flow control device and disposable

Special Features:

Double lumen, french size 7; introducer lgth 20 cm; curved multipurpose peelaway sheath; lgth 9 cm; introducer fr size 8; w/optional synthetic fiber cuff and clamp; radiopaque silicon; used for venous pressure monitoring, blood sampling, administration of fluids/drugs

Style Designator:

Arterial irrigation

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

A22100
