Casehardening Indicator:
Not casehardened
Thread Length:
20.0 millimeters
Material And Location:
Any acceptable
Outside Thread Diameter:
10.0 millimeters
Special Features:
Material polyl-lactide acid, angled 50 degrees for fixation to prevent post-op hematomas, distal tibial tunnel screw can withstand
moderatehigh temperature exposure
Shelf Life:
N/a
Unit Of Measure:
- -
Demilitarization:
No
Fiig:
T133-m
