Casehardening Indicator:

Not casehardened

Thread Length:

20.0 millimeters

Material And Location:

Any acceptable

Outside Thread Diameter:

8.0 millimeters

Special Features:

Material poly(l-lactide acid, angled 50 degrees for fixation to prevent post-op hematomas, distal tibial tunnel screw can withstand moderate/high temperature exposure

Shelf Life:

N/a

Unit Of Measure:

--

Demilitarization:

No

Fig:

T133-m
